

Meet Andy

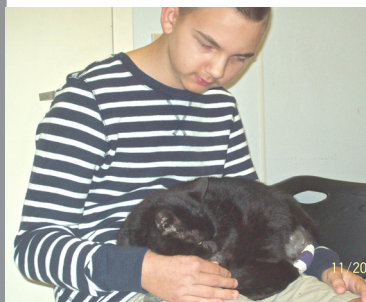

I'm Andy and I used to be homeless. Life on the streets was hard and scary. I had to search far and wide for scraps of food, sometimes not finding any. When it was rainy and cold, I didn't always have a warm, dry place to curl up and sleep.

Every day, I watched humans go by without stopping. No one would rescue me. I was alone and in pain. Then, one day, Joshua came into my life and saved me.

I was very ill. Joshua's family took me to FCNMHP. I overheard the humans say I would need intense surgery and that it would cost more than \$2,000. Joshua's family seemed sad at first, but then the humans said their Angel Fund would pay for it. I had to stay at the vet clinic for a long time, but I pulled through.

After a long road to recovery, I was finally reunited with my best friend. Now, I am happy and healthy. I went from a street life to a lap life thanks to Joshua and his family.
